

# Public Summary

**date** December 17, 2019  
**subject** Detailed Requirements for Dissemination and Exploitation of Results (D6.1)

An essential part of the execution of a project co-financed by the Horizon 2020 research and innovation programme is the development and execution of a dissemination and exploitation strategy (PEDR). Deliverable 6.1 outlines the first draft strategy as well as the main elements to be taken into account when executing the PEDR-strategy.

This deliverable provides an overview of the actions foreseen in the area of dissemination, as well as a first outline on the main elements of the exploitation strategy. The document will be further discussed during the project duration, updated and extended. In addition, it lays the basis for the actions to be taken regarding the creation of the SME forum as well as the development of the MARCOMM plan.
